NCPD

National Council of & for Persons with Disabilities

VISION

Our vision is that South Africa becomes a totally inclusive and equitable nation.

A society where the human rights of persons with disabilities are upheld and protected, ensuring inclusion in all spheres of social, economic and political life.

MISSION

The NCPD's mission is to advocate and facilitate equitable social and economic inclusion of persons with disabilities in South Africa.

We constantly seek innovative ways to remove challenges experienced by persons with disabilities. To drive sustainable change we engage, challenge and collaborate with a broad spectrum of stakeholders (government, private, public and civil society) to mobilise resources for advocacy, specific services and programmes, developing opportunities that enable persons with disabilities to exercise their human rights and participate fully in society.
