Thuthuzela Care Centres, what are they?

Thuthuzela Care Centres (TCCs) are one-stop facilities that have been introduced as a critical part of South Africa's anti-rape strategy, aiming to reduce secondary victimisation and to build a case ready for successful prosecution

The Thuthuzela project is led by the NPA's Sexual Offences and Community Affairs Unit (SOCA), in partnership with various departments and donors as a response to the urgent need for an integrated strategy for prevention, response and support for rape victims

Following are useful contacts for the Thuthuzela Care Centres:
